

Angelica M. Dinh: Final Project

1. A detailed description of where each of the criteria is on your site. Anything not listed here may not be counted.
 - An Animated Bar Chart or Interactive Data Visualization
 - My animation chart bar is located under “Histogram Chart”. There will be a button that needs to be clicked so that the animation can take affect. In the website the button will be under “What is your favorite Café Shop?”
 - An Interactive Map
 - No interactive map
 - An Interactive Image Gallery
 - Image gallery can be located with another button. HTML is labeled under “Gallery”. The button fades in the gallery and in the website you will find that under “Photo Gallery”
 - At least one use of the HTML5 Video and/or Audio tags
 - Video is located at the bottom of the HTML page labeled as Video. The website has a navigation bar that says video. It is combined in the same location with my canvas.
 - 2 Uses of the HTML5 Canvas tag
 - 2 canvas images are under the HTML page saying “Heart Coffee.” In the website it shares space with the video. It is labeled as “My Canvas”
 - Have at least two uses of jQuery effects
 - The 2 jQuery effects are using my chart and gallery. The chart toggles up and down and the gallery fades in
 - Check for features with Modernizr and provide fallback content for legacy browsers
 - Modernizr fallback content will be found with both canvas images and video
2. An overview of why you chose the theme & Idea for your site.
 - I chose the theme because I love coffee. Being a mother who no longer has time for much, I didn’t want to be one of THOSE mothers who only thinks and only talks about babies, lol. Decided to choose coffee because before having my daughter and starting school again I always found myself at Starbucks reading

3. Links to any graphics that you used online with releases that says you can use them

- All images were found in Flickr under the Creative commons license
